PROCUREMENT DIVISION WEEKLY REPORT FOR PERIOD ENDING 16 FEBRUARY 1983

	1. Progress Report of lasks Assigned by the DCI/DDCI:
	No tasks assigned during this reporting period.
	2. Items or Events of Major Interest that have Occurred During the Preceding Week:
STAT	
STAT	b. Security Shelving P&SCB has
	an unfunded requirement for both power shelving and self propelled shelving to accommodate the moves of Security
STAT	Records Division files and Polygraph files to Building. Current plans would require these files to be in place
	1 September 1983. There are several problems that must be surmounted: 1) need to know if a sprinkler system will be
	required, 2) need to know when the area will be available for
	a contractor to start installation, and 3) need an adequately defined specification for what is desired. Once these are
	determined, P&SCB will compete for shelving and installation under the mandatory Federal Supply Schedule rather than accept
STAT	the sole source request made by the Director of Security.
	3. Significant Events Anticipated During the Coming Week:
STAT	None.
